

## Supplies for Your New Bunny!

*Did you just adopt a new rabbit? Congratulations! Now it is time to shop for everything they will need to make your house their forever home! Below is the list of things we recommend purchasing before bringing a new rabbit home with you.*

### Carrier

The very first thing you need to buy is a carrier to help you bring your bunny home! Hard carriers are safest, and if it has a roof opening, it is much easier to use!

### Housing

There are many options for comfortable housing for your new bunny! If you have the space to set them up with a play pen, that is best, and we suggest one with at least a 36" height. Otherwise they can be comfortable in multilevel hutches with lots of free playtime.

### Bottles/Bowls

You should consider getting a pellet bowl, a produce plate, a hay feeder, and a water bowl or bottle for your rabbit. If you use a water bowl, it should be large.

### Litter/Litter Boxes

You want to plan to purchase 2-3 large (as big as possible) litter boxes for your bunny as well as plenty of bunny safe litter!

### Grooming Supplies

The essential grooming supplies you want to have on hand are nail clippers and a nice, gentle brush.

### Cleaning Supplies

You will need to regularly clean your rabbit's cage and litter boxes so be sure to buy plenty of safe cleaner! Cage cleaner and white vinegar work best!

### Hay and Pellets

Oxbow products are the best for your new bunny! They will need a healthy rabbit pellet feed as well as plenty of hay.

### Produce

Fresh veggies and occasionally fruits are important for your bunny's diet. Make sure to check our list of Bunny approved foods to be sure what you buy for them is safe.

### Enrichment

Make sure you buy plenty of enrichment for your new bunny! They will need hideaways, toys, and treats to keep them busy, entertained and happy!
